EM.I. are specialists in HLS (Homeland Security), offering expertise in consulting & training drawn from extensive international experience in various fields of security and related activities.

EM.I. provides the Israeli Airports Authority (IAA) with the detailed security consultancy of the plans and construction supervision, for the New Eilat International Airport. (ISRAEL).

EM.I. has recently successfully accomplished its task within the (EC) European Technical Assistance Program for the Republic of Serbia.

EM.I. was sub-contracted to European consortium to provide a key contribution in security expertise under the European Technical Assistance Program for the Republic of Serbia. (Between 2009-11).

The activities include technical assistance, training development, facilities tendering and supply inspection.

EM.I. Provided (Between 2004-5) the Israeli Airports Authority (IAA) with a comprehensive Security Consultancy for the Master Plan for the proposed New Eilat International Airport, (Israel).

EM.I. offers a vast int'l experience in security consultation & trainings - provided by highly positioned veterans from Secret Services, police, military Special Forces and Israeli aviation security units' experts.

EM.I. are potent in diagnostics, design, implementation, operations, deployment, control and training in security systems.

Added value is further achieved by using management engineering and simulation tools - to provide highly optimized results; from single guard activities up to comprehensive security systems' processes.

EM.I. is familiar with "Design to Cost" and provides "Tailor Made" solutions.

Areas of activity:

Consultancy

E.M.I.'s Security Relevance:

- Airlines & airports.
- Seaports.
- Land transportation (railways, buses & interchange terminals.)

- Restricted plants & installations.
- Safe City complexes.
- Sensitive entities & crowded events.
- Crises & disaster control, response & treatment.
- Special Forces & riot management control.
