With over 14 years of experience, 3000 employees and 75,000 sq. m. (810,000 sq. ft.) the Israeli operation of Flextronics International Ltd. Is the leading electronics and mechanical contract manufacturer in Israel. Leveraging global capabilities, from design resources to end-to-end, vertically-integrated, global supply chain services, we provide customized solutions for our OEM customers. We provide more value and innovation by offering both global economies of scale in procurement, manufacturing, and after-market services, as well as market-focused expertise and capabilities in design, engineering and ODM services. We design, build, ship and service a complete packaged product to our customers.

Commitment to Customer Satisfaction

We firmly believe that long-term customer satisfaction is the cornerstone of our success. To continue meeting the changing needs of our valued customers, we are committed to creating value that increases customer competitiveness through a world-class vertically integrated solution that establishes the industry's standard for superior quality and service.

Why Flextronics Israel?

- High level of flexibility and production diversity
- Operations close to customers, sharing the same culture and time zone
- Highly skilled and experienced workforce
- Strong technical staff who provides innovative solutions to customers
- Comprehensive logistics services
- End to end solutions from NPI to final system integration and logistics
- Driving customer success by embracing Lean & Six Sigma
