GLOBAL SHIELD is a vehicle development company specified in armored vehicles and accessories for military and special vehicles. Based on Yossi Bar's group knowledge in the armored vehicles market, which has more than 19 years of experience in designing, engineering and production of more than 1,000 armored vehicles.

General

Global shield specializes in the development, manufacture and marketing of a variety of products for various Israeli Governmental Agencies, Public and Private Organizations, high-ranking public figures and the Israeli Defense Force.

Products

- Civilian armored vehicles (land cruiser, defender, truck, jeep, suburban etc.).
- Military armored vehicles ("OMER").
- GS Gun port.
- Automotive upgrades.

Management Team

Global shield's professional staff includes armor and automotive experts with experience from the Israeli defense forces know-how. All the development, manufacturing, and marketing are carried out in-house at global shield's facilities, with a special emphasis on quality assurance production, in which we provide continuous and consistent customer service.

Our staff has delivered more than 1,000 armored vehicles to various clients around the world including armed forces in Iraq, Israeli military and police, special vehicles for the secret service and more.
