**H.D.** Fire Protection Engineering Ltd., founded in 1997 by Mr. Haim Rabayov and Mr. Dan Porat. The company characterizes designs, manufactures and installs systems that provide transparent protection through fortified doors, windows and curtain walls. The company also offers complementary products of smoke and fire safety.

### Products and Services:

- Laminated glass against forced-entry threats.
- Fire resistant materials.
- Ballistic resistant products.
- Transparent fire doors and windows with steel or stainless steel-profiled frame, which allows ballistic protection against 7.62 caliber 5.56 caliber regular and AP ammunition.
- Blast resistant products.
- Transparent fire doors and windows with a steel

or stainless steel-profiled frame and curtain walls which provide protection from 250kg explosive device, made out of T.N.T, from a 12m distance.

- Fire Safety Supplemental products such as the "DORGARD" - fire door retainer.

Our doors and windows manufactured in galvanized steel and stainless steel profiles.

H.D. Fire Protection Engineering is Israel leading manufacturer of fire, smoke, forced-entry, ballistic and blast protection transparent doors, windows and curtain walls.

The company products meet the requirement of National and International standards:

- DIN 4102
- BS 476 p22
- New European Norm
- All Relevant Israeli Standards
