IDenta Corp. has developed and manufactures an exciting array of new products to help combat the enormous problem of the sale and distribution of illicit drugs and other dangerous or illegal substances including explosives. IDenta Corp. (stock symbol IDTA, OTC pink sheets) was established in 1994 with the mission of developing, manufacturing and marketing on-the spot kits (field kits) for the identification of illegal drugs, explosives and developing other forensic products. IDenta was founded by Mr. Yaacov Shoham - CEO and Mr. Baruch Glattstein - Chief Scientist (Both are retired from the Israeli Police department - rank chief superintendent).

Products

IDenta is manufacturing the following products:

- **IDenta Stinger** - drug detectors for all kind of illicit drugs, aimed for the legal law enforcement.
- **IDenta Confirm** - drug detectors aimed for the retail-consumer market, (worried parents, schools, working place) the same detectors as IDenta Stinger but in a different packaging.
- **Detectors for precursors**, a new line, so far we have already detectors for precursors used in the manufacturing of ecstasy and heroin.

- **IDenta Alert** - explosive detectors - for all known explosives families including TATP.
- **Drug General Screening detector**, a unique product making possible to receive an instant answer if the suspected substance is an illicit drug, yes or not. This new detector will become a major factor in the retail - consumer market!
- **BTK-bullet hole testing kit.**

IDenta Corp. has rapidly become recognized as a world wide leader in the development of a variety of substance detection kits including proprietary on-site drug detection kits and explosive identifier kits. Information concerning IDenta's entire product line may be found at www.identa.biz and www.identa-corp.com

IDenta Corp's detectors are the most reliable drug and explosive detection kits on the market. IDenta Corp's different detectors are Easy to Use, Simple, Instant Answer, The Most Accurate, Safe, Quick Response, "Green", Inexpensive!
