IDentytech Solutions™ Ltd. is a leading provider of intuitive Identity management products and solutions. Founded in 2010 IDentytech™ provides its worldwide customers with best-in-class complete identity management solutions. We further offer custom engineered solutions for those customers requiring proprietary solutions. IDentytech has field proven solutions for Corporate Enterprise, Government and Financial services, Healthcare, Schools, Transportation, Small to medium businesses and Private sector.

Expert Support

With over 20 years' experience in the industry, our team will respond rapidly to your needs, no matter how complex or unique they are. Matched by business-focused, technical support, our response to your objectives has led to the highest levels of customer satisfaction in the industry.

Our Solutions

Our IDT™ line of solutions, incorporate precision fingerprint, Facial, Iris, Voice and Palm Vein -sensing technology into ergonomic computer peripherals that deliver unparalleled performance, reliability and

convenience. Field proven, not Laboratory tested!! Available in a modular manner, the IDT™ platform offers interoperability and ease of use, integrating the industry's best performing cameras, sensors and algorithms. All IDT terminals are offered in a rugged, elegant design, with the industry's required interfaces, enhanced security and convenience, private labeling and other custom options.

Unlike others, IDentytech uses a unified platform for managing all types of Biometric technologies with integrated smart chips and cards with a deep emphasis on international security, travel and other required standards.

Experienced Staff

At the heart of the company, is a team of skilled developers, programmers and technical support staff, Along with sales, marketing and administration staff that are committed to providing our customers with unrivalled solutions, expertise, service and support.

Performing as a one stop shop for your Identity Management needs, IDentytech is able to perform, develop and deliver the required solution seamlessly in a very short time and a very competitive price.

Bottom Line

Biometrics That Work!
