**M**aavarim Group was established in 1995. Since then, the company has acquired extensive experience in landmine clearing, the disposal of UXOs (unexploded ordnance) and the use of working dogs in Israel and abroad. Today, Maavarim is a leading international company in all those fields.

The company operates on a global scale: In Israel, Africa, the Balkans, the Middle East, Central Asia, South America and many other locations.

Maavarim is **ISO 9001:2008, 1410001, 181001** certified; a registered supplier to the Israeli Ministry of Defense and is an authorized supplier to SIBAT and the United Nations in all fields pertaining to landmine clearing, the disposal of unexploded ordnance and munitions and K9 services.

Company operations comply with the most stringent international standards (IMAS) and standard operating procedures. All work executed by the Company is constantly monitored and evaluated to ensure that the Company's very high standards are maintained.

We will be happy to discuss any proposed project.
