www.max-security.com

Since 1996, Max Security has been providing comprehensive security and risk management solutions for the corporate, official, and private sectors.

Our goal is to enable business continuity in the world's most volatile operating environments via proactive, client-tailored security measures including security consulting, intelligence assessments, travel security, ground support and professional security training.

Where we do it

Max has 4 regional offices and a network of representatives globally. Our offices are located in:

- Max Security Middle East and North Africa, Tel-Aviv, Israel (Main headquarters).
- Max Security Asia, Mumbai, India (Regional Office).
- Max Security Europe, Vicenza, Italy (Regional Office).
- Max Security Central Africa, Lagos, Nigeria (Regional office).

Integrating between local knowledge, Israeli Methodologies and Max Security's vast experience – our global offices and partners create a network of security professionals you can rely on in over 50 countries.

Who we are

Max is headed by veterans of the Israeli Defense Forces, Special Forces and the Israeli Security Agencies. Our personnel have extensive international operational experience in a variety of sectors. This allows rapid adaptation and modification of specific solutions to different environments.

Why Max

Max-Security has been providing risk mitigation solutions tailored to the complexities of the Middle East and other regions since 1996. Clients choose Max because of the dedication and the personal attention our customers receive. Our handpicked team allows us to integrate the knowledge and experience of field operatives, with the expert analysis of our office team. Max provides clients with a unique and comprehensive security perspective.
