Brief History

Supergum was established in 1956 as a small rubber manufacturer in Tel Aviv. Following major expansion and investment in new machinery, Supergum moved into the Barkan Industrial Area. The company has achieved high standards in development and production due to its innovative technology, flexibility and commitment to quality. Development of new products from concept to

prototype and serial production takes place in close collaboration with customers using the company's comprehensive experience, specialist knowledge and R&D experts.

Financial Data

Total sales in 2008: \$25 million.
Total Exports in 2008: \$4.0 million.
Annual sales increase by an average of 6%.
